PROFESSIONAL SUMMARY

Driven HR Specialist and Computer Science student with hands-on experience in full-cycle recruitment, talent acquisition, and HR administration across diverse industries. Proven ability to conduct high-volume interviews for 10+ job functions, manage employee lifecycles, and deliver data-driven HR operations using Excel and Google Sheets. Complemented by a solid technical background in front-end development (HTML, CSS, JavaScript), AI, and C++ — enabling a uniquely analytical and tech-savvy approach to people operations.

EDUCATION

Bachelor of Computer & Information Sciences

Sep 2024 – Sep 2028 (Expected)

Sadat Academy for Management Sciences (SAMS) — Cairo, Egypt

HR EXPERIENCE

HR Manager | Netizens Team

Aug 2025 – Present

- Lead all HR functions including full-cycle recruitment, onboarding, employee relations, and offboarding for a growing digital organization
- Conducted high-volume interviews across 10+ diverse job functions: HR, Marketing, IT (UI/UX, AI, Mobile Application, Web Application, Cybersecurity), Graphic Design, Video Editing, Voice Over, Content Creation, Event Management, PR, and Sales
- Developed and implemented HR policies and internal guidelines aligned with organizational goals and team culture
- Managed employee performance cycles and provided day-to-day HR advisory support to team members and managers
- Maintained accurate HR records, headcount data, and candidate tracking databases using Google Sheets and Excel

HR Vice Manager | Netizens Team (Part-time)

Apr 2025 – Aug 2025

- Supported the HR Manager in overseeing daily HR operations and executing strategic people decisions
- Coordinated end-to-end recruitment pipelines and maintained structured candidate tracking systems
- Conducted cross-functional interviews and facilitated new employee onboarding and integration

HR Recruiter | WorkEgypt

Jun 2025 – Jul 2025

- Managed full recruitment cycle: job posting, candidate sourcing, screening, interviewing, and offer coordination
- Sourced qualified candidates via LinkedIn and job portals using Boolean and advanced search techniques
- Maintained applicant tracking logs and produced recruitment progress reports for stakeholders
- Ensured a professional, positive candidate experience throughout the entire hiring process

HR Member | Hult Prize – SAMS (Part-time)

Oct 2024 – Sep 2025

- Supported recruitment, team-building, and member engagement for a global entrepreneurship competition program
- Coordinated inter-departmental communications and scheduling to ensure smooth event operations
- Contributed to fostering a positive team culture and improving member retention

TECHNICAL EXPERIENCE

Front-End Developer | Hult Prize – SAMS

Feb 2026 – Present

- Build and maintain responsive web interfaces supporting the organization's digital presence and event operations
- Collaborate with cross-functional teams to translate design requirements into functional UI components

Business Development Member | Rally Society – SAMS

Late 2025 – Present

- Contribute to partnership development, stakeholder outreach, and organizational growth strategies

Artificial Intelligence Intern | Microsoft Student Club – SAMS (On-site)

Feb 2025 – May 2025

- Applied machine learning concepts using Python including clustering, classification, and regression models
- Strengthened self-learning and research capabilities within a structured AI training program

C++ Developer | ICPC Sadat Academy Community (Remote)

Feb 2025 – May 2025

- Practiced competitive programming and advanced algorithmic problem solving using C++

C++ Developer | Hult Prize – SAMS (On-site)

Oct 2024 – May 2025

- Contributed to technical development projects and collaborated with cross-functional teams

PROJECTS

Multi-Clinic Booking & Appointment System | Front-End | 2026

- Developed the front-end of a full-featured multi-clinic healthcare web application using HTML, CSS, and JavaScript
- Features: online appointment booking across different dates and time slots, consultation fee display, and clinic locations
- Integrated WhatsApp contact, hotline support, and an online payment flow with booking confirmation forms
- Built an Admin Dashboard enabling administrators to review, accept, or reject patient booking requests in real time

Personal Portfolio Website | In Progress

- Currently building a personal front-end portfolio to showcase projects and technical skills using HTML, CSS, and JavaScript

Employee Management System | C++

- Built a C++ program to manage employee data including working hours, salaries, bonuses, and new staff onboarding

AI Projects | Python

- Developed a clustering model for unsupervised learning tasks
- Built classification and regression models for predicting continuous values
